## What is an Outcomes Group?

The Children and Young People's Strategic Partnership (CYPSP) has set up five Outcomes Groups, one in each of the Health and Social Care Trust areas in Northern Ireland.

The purpose of the Outcomes Groups is to carry out integrated planning and commissioning for children and young people, with specific emphasis on sharing resources across agencies to improve outcomes for all children and young people in their area. All five Outcomes Groups have produced action plans for their areas in response to the Northern Ireland Children and Young People's Plan. These can be found on our website, under each Outcomes Group's webpage at [www.cypsp.hscni](http://www.cypsp.hscni).

## Who is involved?

Outcomes Groups are a partnership of senior leaders across all sectors within each of the 5 HSCT areas of Northern Ireland. They are chaired by the Director of Children Services in each Trust and focus on Early Intervention, building preventative places and Improving outcomes for children and young people.

Their membership reflects that of the CYPSP in that it includes representatives from statutory agencies and the community and voluntary sector.

Each Outcomes Group Reports to the CYPSP and are closely connected to 'Regional Task and Finish' Groups as well as receiving regular reports from Locality Planning Groups and Family Support Hubs.

## What do they do?

The five Outcomes Groups are responsible for the integrated planning and commissioning of services at a geographic level that is consistent with the Health and Social Care Trusts across Northern Ireland.

It is important they understand need and the issues for children and young people in their area using the CYPSP data sets organisational data and input from children young people, and their families and information from Locality and Family support hubs.

The Groups share information, knowledge and expertise about the Outcome Group area, as well as identifying and removing barriers to more effective collaboration and partnership working, identifying opportunities to share budgets and make connections with other planning processes for children and young people.

Each of the Outcomes Groups has been provided with additional funding by the Health and Social Care Board to put in place early intervention family support services to meet the priorities set out in the Outcomes Groups Action Plans.
