

Keep up to date with Child Policy

CiNI's Child Policy Information Service provides subscribers with exclusive access to a weekly Political Update which contains the latest legislative developments affecting children and young people at Stormont, Westminster and Europe.

You will also receive a fortnightly e-Brief featuring the latest news, research and statistics. The e-Brief also gives subscribers the opportunity to share their latest consultation responses with other organisations and individuals working in the sector.

Anne Moore - Policy and Assembly Coordinator with Save the Children Northern Ireland - said, "The service provides an excellent political update about business at Stormont, Westminster and Europe. It is a very useful resource for colleagues and serves as an important reference tool which does all the hard work. Congratulations to CiNI for such a vital intelligence service."

Register now to receive a free month's trial of the CPIS service!
