Tel: 028 2563 6602 or Email: maryfrances.bell@northerntrust.hscni.net

Parents, young people, schools and the wider community working together to make sure all children and young people in Bushmills do well at school

Q: What is the project about?

It's about understanding why some young people from Bushmills do really well at school and others don't.

Bringing the Community Together

Children & Young People's Strategic Partnership

Bushmills Education Project

Q: What have we done up to now?

We have carried out a survey and organised a number of small conversations across Bushmills focusing on such issues as the relationship between parents/carers and schools; pre-school education; homework; doing well at school – what does it mean; and supporting children with additional needs. We have talked with young people and their families, with the churches, with the local schools, with Dalriada Sure-Start, with youth groups, with elected representatives and local traders amongst others about their experiences, hopes and possibilities for education in Bushmills and what they can do about it.

Q. Why attend this event?

- A chance to find out what different groups and organisations are doing for education in Bushmills.
- Have your say about your experiences and your hopes for education and young people.
- Listen to what other people think, enjoy time out, and have a bit of craic.
