

# South Eastern Outcomes Area

## Locality Outcome Monitoring 2006 – 2012

Information to Support Integrated Planning for Children and Young People in  
SEHSCT Area at Ward Level  
December 2013

## Introduction

The Children and Young People's Strategic Partnership has come together, as the first Chief Executive led partnership in Northern Ireland, with the aim of improving the lives of all our children and young people. A Northern Ireland Children's Services Plan 2011-2014 has drawn up our approach to improving outcomes for children and young people along with agreeing key themes –which are the most important issues that will be taken forward in the Children and Young People's Plan. Detailed Action Plans are also being drawn up by each Outcomes Group across Northern Ireland which will provide more detail on how we are improving outcomes for children and young people. (more details available at [www.cypsp.org](http://www.cypsp.org))

**Healthy;**  
**Enjoying, learning and achieving;**  
**Living in safety and with stability;**  
**Experiencing economic and environmental well-being;**  
**Contributing positively to community and society; and**  
**Living in a society which respects their rights.**

Everyone from Government to local communities has a role to play in helping to reach these goals. Children's Services Planners and Information Officers have been working with staff from OFMDFM and the Department of Education to design and agree a set of core indicators which will measure the extent to which the collective efforts of everyone involved are achieving the six outcomes.

# Introduction

This report shows how children and young people in the South Eastern Outcomes area are doing in relation to the Government's six outcomes and covers the period 2006 up to 2012 where the information is available. It can already be seen from the trends over time that some indicators show that our children are doing well but others are worrying. The report presents the information collected against agreed indicators for each outcome, providing analysis against NI averages over time and comparison across ward areas.

In reviewing progress towards achieving the six outcomes it is essential to be able to measure that progress for our most vulnerable children. In order to do this, the data collected needs to be disaggregated by specific groups of children identified as priority by the Children's Services Planning process as well as the Section 75 (NI Act 1998) categories. The Children's Services Plan describes how the core indicators included in this report will be analysed for specific groups of children and complemented by additional indicators. Work is also continuing to ensure the indicators allow us to measure children's rights and how they are being realised.

The Information collated in this report is already being used by Children's Services Planning Outcomes Groups, together with needs assessment material collected from agencies, children and young people and communities, in the planning of services. It will inform the work of the new strategic Children and Young People's Partnership. It is also useful for locality partnerships, who can use it to help them plan better for children in a particular locality.

We are publishing this information as we hope it will be useful for any agency or partnership, at local or Northern Ireland level, in the analysis of how well our Children and Young people are doing, against our agreed outcomes. [This information is also available on our CYPSP Interactive mapping system which can be found on www.cypsp.org.](http://www.cypsp.org)

**NOTE: This report will be kept as a live report under the publications page on our website with information being updated as it becomes available.**

% Dental Registrations Children 0 -2 years	6	8	10	12
% Dental Registrations Children 3-5 years	6	8	10	12

## What we want to achieve for all children and young people:-

- Reduced inequalities in health and access to health services;
- Improved mental and emotional well-being by strengthening services and promoting positive attitudes;
- Improved physical and sexual health;
- Young people supported to make healthy lifestyle choices;
- Parents provided with assistance from an early stage to ensure children have a good start in life and are supported into adulthood.

## What we want to achieve for all children and young people:-

- Increased access to quality early years services particularly in rural areas;
- Improved outcomes for children who are not at school or are not reaching target attendance rates;
- Strengthened services at transition stages from home/preschool/primary/ post primary/employment;
- Access to quality play and leisure facilities;
- Parents and carers supported to encourage children to enjoy, learn and achieve.

## What we want to achieve for all children and young people:-

- Children and young people to feel and be safe and secure in their homes and in their communities;
- Improved outcomes for children at risk of abuse;
- Access to family support services appropriate to age and location;
- Support for families at risk of being homeless;
- To be free from bullying.

# LIVING IN SAFETY AND WITH STABILITY

Areas shaded red are performing poorer than NI average and are areas for concern if consistently shaded

## What we want to achieve for all children and young people:-

- Improved outcomes for children who live in poverty;
- Access to safe, quality play areas;
- To live in homes that do not fail decent standards;
- To achieve economic stability and independence.

# Making a Positive Contribution

## What we want to achieve for all children and young people:-

- That children and young people are valued by society and their communities;
- Increased opportunities for volunteering in community and voluntary work;
- Access to leisure activities involving young people in their design and delivery;
- A preventative and early intervention approach to youth offending.

## Contact Details
