To mark this the tenants of The Junction, Dungannon are inviting community groups and organisations across Mid-Ulster to our event to learn more about services and support available for staff and volunteers as well as using the opportunity for groups to come together in a social setting to find out more about each other and the work everyone does.

18th September 2017

We are delighted to take this opportunity to invite a representative of your group/organisation to attend our "Coffee & Connect" event on Tuesday 10th of October. This joint event is presented by the tenants of the various organisations and projects housed at The Junction, Dungannon and marks Mental Health Week 2017, which this year focuses on "Mental Health in the Workplace".

A lot of work undertaken by the tenants within The Junction centres on Mental Health Support and we feel that it is important that the Mid-Ulster community sector come together to share experiences and opportunities with each other to encourage partnership work, signposting and referrals etc.

At the event, there will be an opportunity for groups and organisations to share materials and network with other groups and organisations and for those groups not working in the field of Mental Health Support to get an understanding of the services available out there for their clients/participants and employees.
