

Bangor Cares is a grassroots movement of local people from all walks of life including schools, churches, youth and community groups, businesses, statutory bodies and individuals who have all come together to do something to show Bangor people that they are cared about.

There will be a wide range of activities over the week of 23-29 September taking place in a variety of locations. Some of the activities are shown in this leaflet but for details of each day's events, and information on support organisations, please go to the Facebook page.
