Children & Young People's Strategic Partnership

The Omagh Early Intervention Family Support Hub

The Omagh Early Intervention Family Support Hub is a multi agency network of organisations providing early intervention services to families.

What is a Family Support Hub?

The Omagh Early Intervention Family Support Hub is a signposting service. It is a multi agency network of organisations that either provide early intervention services or work with families who need early intervention services.

What does Early Intervention mean?

Early Intervention refers to intervention (support) 'early in the life of a child' or 'early in the life of a problem'.

The aim of the Hub

The aim of the Hub is to ensure that families in need of support can choose the right help from the right service at the right time.

How we do it?

Hubs signpost professionals and families to the services they need. The Hubs look at the needs of the family and work to match the family needs to the best possible services that can help.

Families & Professionals will receive the option of having their referrals anonymised and discussed at Hub Quorums that occur once a month where Hub partners will be present. The Hub coordinator will provide recommendations about the service(s) which is best suited to meet the needs of a family. Please see the list of our Hub Partners in our Hub booklet.

This can be a service provided by a core member of the Hub or an organisation closely associated with the Hub.

The Hub uses FSNi website www.familysupportni.gov.uk to help find appropriate LOCAL Family Support Services. This website provides details of statutory, community and voluntary services and is a useful information resource for front line staff, parents and young people looking for family support. This database can be accessed in a variety of languages.

In addition the Hub also works very closely with Priscilla Magee, Omagh Locality Planning Co-ordinator.

What are Locality Planning Groups?

Locality Planning Groups are partnerships between statutory, voluntary and community organisations that are working with and for children young people and families at a local geography; such as District Council areas.

Locality Planning Groups are a Partnership of front line leaders and staff across all sectors from the local neighbourhood / locality. Their work focuses on early intervention, building preventative places and improving outcomes for children and young people.

The Fermanagh and Omagh Locality Planning Groups reports to the Western Area Outcomes Group by sharing information, knowledge base and expertise about the local area and identifying opportunities to improve outcomes for children and young people by working better together.

Members of each Locality Planning Group understand the issues for children and young people in their locality by using the CYPSP data sets, organisational data and input from children young people, and their families and linking closely with local Family Support Hubs.

Fermanagh and Omagh Locality Development Officer: Priscilla Magee

How Can I get Help?

Self referrals can be made by parents.

If you feel you would like our support, you can contact us directly and we will arrange to discuss how you can be signposted to a service that best meets the needs of your family. You can also talk to someone on the list below to contact us on your behalf.

Professionals from a range of agencies, including those listed below, can also make referrals:

- Health Visitor
- Community Paediatrics
- School
- Education Welfare Officer
- Educational Psychologist
- Social Services Gateway Team
- CAMHS
- Youth Justice
- Occupational Therapist
- GP
- PSNI
- Speech & Language Therapist
- Paediatrician
- Hub Partner Organisations

Action for Children

HOW
**ACTION FOR
CHILDREN**
WORKS

Early Intervention Family Support Service

Works across Omagh offering support to families.

We aim to help children and their families deal with difficulties/problems and work together at an early stage to explore solutions and prevent long term problems.

Family Group Conferencing

A Family Group Conference is a meeting where family members, relatives and friends get together to discuss problems or issues and make a plan to help and support one another in the future.

It is a different way of dealing with family difficulties – as families know one another best, it is a way for them to take responsibility for planning for their children.

Family Group conferencing allows families to take responsibility for making good, safe decisions about their children.

Floating Support Service

Works across Omagh offering support to young people aged 16/17 where there is a risk of family breakdown, risk of homelessness or homelessness. Or aged 18-21 leaving care and homeless or at risk. We offer family support and mediation to help young people remain at home or with carers, we also offer preparation for independent living and budgeting skills programmes, advocacy work with a range of agencies including social services and the housing executive. We are a 24 hour Service.

Adult ADHD NI

Adult ADHD NI is an organisation offering support to parents and family members of children and adults affected by ADHD throughout Northern Ireland. Our purpose is to create awareness of ADHD, provide support and information to families and those directly affected by the condition.

We offer one to one support for parents and family members directly affected by ADHD . We deliver training and information sessions to parenting groups, educational providers and health professionals.

We have monthly support groups in various locations throughout Northern Ireland. These offer peer support and an opportunity to meet other people who may be experiencing similar issues and reduce the anxiety that can be associated with ADHD.

Support groups:

Omagh on the first Tuesday of the month at Omagh Library from 7.00pm.

Activity programmes based on stress reduction techniques and reducing social isolation and anxiety.

Supporting people with a hidden disorder to achieve their full potential.

You can contact us on Facebook or Twitter.

Brain Injury Matters

Do you have or know someone else who has a child with an acquired brain injury (ABI)? If so then the Family First Service may be able to offer support. The Family First Service offers a specialist programme designed to empower families, across the whole of Northern Ireland, to support the recovery of children aged 0-12 years old who have sustained an acquired brain injury.

Our family practitioners come from a range of professional backgrounds and work with the whole family unit to enable both the family and the child better manage the impact of ABI in daily life.

ABI refers to any brain injury acquired after birth, this can include children who are experiencing repercussions of illnesses such as meningitis, encephalitis, brain tumours and or a traumatic event directly resulting in acquired brain injury.

Who can apply?

Anyone can make a referral, whether you are a family member, social worker, GP, counsellor or teacher. The child with ABI must be age 12 or younger but families can come in any shape or form and involve any number of people.

What happens once a referral is made?

A member of the Family First Service will contact the family and find out a suitable time to meet. We will find out more about the challenges being faced and discuss support we could offer.

How do I apply?

You can find a referral form in both the Referral and Children Services sections of our website (www.braininjurymatters.org.uk) or you can call our team for further information on 028 9070 5125. Alternatively you can email us at info@braininjurymatters.org.uk

Our DICE 2 project works with vulnerable young people aged 10-21 who have been affected by hidden harm. Hidden harm is the term used to describe the impact of parental substance misuse on a child. This includes drugs and alcohol. We provide individual support to the young person to help them to come to terms with their troubles and help to develop their self-esteem and resilience. We can work with the young people in small groups as research has shown that groups provide the young people with commonality and peer support as well as provide fun activities to help them destress from the problems in their lives. We also provide hidden harm awareness raising sessions in schools and professional support and training for people who work with affected children.

Omagh Neighbourhood Renewal Health Project

Breakthru works across the 5 Neighbourhood Renewal Areas of Omagh providing a range of interventions for children, young people and their parents. The aim is to enable everyone to have a greater understanding of the impact of alcohol misuse, medicine mismanagement and illicit drug use on individuals, families and their communities. We offer Awareness raising, Parent programmes, Detached and Outreach, Peer Education, Brief interventions and signposting.

CAMHS - Child and Adolescent Mental Health Services

Primary Mental Health Service

- Supporting and strengthening Step 1 and 2 CAMHS provision through the building of capability within community and primary care staff (Health, Social Care, Education, Youth Justice and Non Statutory Sectors) in relation to early identification of and intervention with children mental health needs.
- Promoting the mental and emotional health of children, young people and families in the community in line with policy guidance from the National Service Framework for Children, Young People and Maternity Service from pregnancy to adulthood.
- Enhancing accessibility and equality for children and families especially those who would not ordinarily have an opportunity to seek help from statutory and non statutory agencies.
- Early identification of the development of mental health problems in children and young people.
- Working across boundaries to develop a co-ordinated response to children's mental health needs with other agencies
- Facilitating appropriate access to specialist CAMHS and other relevant provision according to level and nature of need
- Providing a direct service to children and young people and their families in an accessible and less stigmatising environment.

What is CFSP?

Community Family Support Programme (CFSP) help families address the employment, educational, training, health, social and economic issues which are causing problems getting into education, training or employment.

Who is CFSP for?

- Aged 16 + years, not in school or college, are unemployed or working under 16 hours per week
- Have concerns with health, social problems, housing issues, financial difficulties, or other issues stopping you find suitable education, training or employment
- CFSP is free and voluntary, we ask that you are committed to improving YOUR life, with our help
- Activities are tailored to your specific needs, strengthening support from family members, friends and / or other services.

Which Council areas is CTS CFSP available?

Causeway Coast & Glens, Derry City & Strabane
Fermanagh & Omagh

When is CFSP?

- Start and finish CFSP anytime, we aim for 4 - 6 months - it's up to you.
- Meet in the family home, public place, library, café, groups or in our office, wherever you feel more comfortable
- Start with the difficulties and work together towards your end goal.

If you feel the time is not right to progress into training or employment, we can maintain contact, and offer to re-engage at a more suitable time.

This project is part funded through the Northern Ireland European Social Fund Programme 2014 - 2020 and the Department for the Economy

How will CFSP help me?

Whether you have been referred by someone who is working with you or your family, like a support service, a careers advisor, or GP, or if you have decided to join yourself, your journey begins with your designated Family Mentor (FM) who will:

- Phone/text to introduce themselves and arrange a time to meet.
- Visit at a time and place that suits you, this initially takes place at the family home, or if you prefer CFSP office or someplace you feel more comfortable.

At the first meeting, the FM will ask some questions about your circumstances, to establish if there are concerns with money, benefits, housing, relationships, health and well-being— this is to assess what support you would like, and what we can offer.

The Family Mentor will ask the Career Mentor (CM) to help when you are ready to start looking for work or education/training opportunities.

The Career Mentor will discuss previous work history & qualifications, what kind of job or course you are looking for, help with job-searching, contacting employers and finding you work, and plan how we can work together to achieve your goals.

Both the Family and Career Mentors can also help arrange training through our Facilitators, who offer online training or source courses and training within your local area.

Michael on 028 8167 0764

We would like to know how local services could be improved and how to make them more accessible

Derg Valley Healthy Living Centre provides a range of health promotion, prevention and early intervention initiatives in the Castlederg area. The HLC provides outreach programmes in Omagh, Newtownstewart and Strabane areas.

The Educational Psychology Service is a specialist support service involved in the identification and assessment of special educational needs and aims "to provide an effective, efficient, equitable, high quality service to children and young people in the age range 0 - 19 in the context of learning, emotional and behavioural difficulties and where possible to prevent these difficulties arising".

The role of the Educational Psychologist is to:

- Provide advice and support to children in the age range from birth to nineteen years, to parents, schools, the Education Authority and to other professionals.
- Be involved mainly with children who have developmental, learning, medical, sensory, communication, physical, emotional and/or behavioural difficulties
- Promote opportunities for the inclusion of children and young people with special educational needs in mainstream schools.

Education Welfare Service

The Education Welfare Service (EWS) is a specialist education support service which seeks to work in partnership with parents and schools to maximise every pupils educational opportunities.

The Law

There are two pieces of legislation which underpin EWS practice.

Education and Libraries (NI) Order 1986

Article 45 of the Education and Libraries (Northern Ireland) Order 1986 states that it is the duty of parents who have a child of compulsory school age to ensure their child receives efficient full time education suitable to their age, aptitude, ability and to any special education needs they may have.

The Children (NI) Order 1995

Article 55 of the Children (NI) Order enables the court to make an Education Supervision Order if it is satisfied that a child of compulsory school age is not being properly educated. The effect of the Order is to place a child under the supervision of the ELB.

The role of the Education Welfare Officer is to:

- Work closely with parents/guardians and schools
- Home visits
- Work in partnership with relevant professionals/services
- Individual and group work
- Convene Education Planning Meetings
- When deemed necessary initiate Court Proceedings on behalf of the ELB

Each school has an identified EWO. Locally, in Omagh, there is a team of four Education Welfare Officers and two Senior Education Welfare Officers.

EA is also committed to promoting equality of opportunity and removing the barriers faced by some young people, in particular the most marginalised & disadvantaged young people. For more information please contact Chris Nicol, Senior Youth Worker- Inclusion on telephone: 02871 382096 or email: chris.nicol@eani.org.

Home-Start Omagh District

Support and friendship
for families

How we help families in our community

For the past 24 years Home-Start Omagh District has been offering one-to-one personalised home-visiting support for parents with children under five. Our volunteers provide non-judgemental practical and emotional support to help build family's confidence and ability to cope at a time when they are dealing with such issues as isolation, bereavement, depression, post-natal depression, illness, disability, multiple births or just finding life particularly tough. In many cases we manage to reach families that won't engage with other services.

Home-Start believes that children need a happy and secure childhood and that parents have the key role in giving their children a good start and helping them achieve their full potential. Home-Start wants to see a society in which every parent has the support they need to give their children the best start in life and focuses its support on the early years, the most crucial time in a child's development.

What Home-Start brings to the community

- Outreach to families through home-visiting support.
- Partnership working and local expertise to enhance family support.
- Trustees: local people selected, trained and guided to run a local service.
- Volunteers: local parents selected, trained and supervised to provide support to other local parents.
- Added value: local and other funding and resources brought into the Omagh District.

Home-Start places trained volunteers alongside parents and support is provided on a weekly basis for 3-6 months.

Volunteers are managed and supervised by the local scheme which in turn is given support

and guidance by Home-Start UK. Home-Start is a community resource with all the benefits of a strong national organisation.

What we do

- Provide tailored, personalised support to families, in their own home.
- Offer practical help with budgeting, cooking and shopping, getting to hospitals, clinics and other appointments.
- Provide opportunities for children to play, read, and get out to local parks and local groups. Encourage wider social and support networks and opportunities for increased engagement in community life.
- Offer choices for parents/children so that their voices can be heard.
- Offer consistent adult role models for parents and their children.
- Signpost families to information and services available in their area.
- Promote active citizenship and help families make a positive contribution to their environment.

Mencap is the leading voice of learning disability. Everything we do is about valuing and supporting people with a learning disability, and their families and carers. We work in partnership with people with a learning disability, and all our services support people to live life as they choose.

Our work includes:

Personal support and Housing: providing high-quality, flexible services that allow people to live as independently as possible in a place they choose

Advice and support: providing advice through our helplines and websites

Campaigning: for the changes that people with a learning disability want.

Employment and personal development: supporting people to secure and sustain employment opportunities within their local community.

Inclusion: The Youth Inclusion Hub supports children's and youth groups that want to include children and young people with a disability or improve their inclusive practices with free training and advice.

We support people with a learning disability throughout Northern Ireland.

Men's Action Network

Supporting & Promoting Male Health & Wellbeing

Who are Man?

MAN are a charity who creates 'safe spaces' to hear and support the life experiences of men and boys age 14 years and older.

MAN offer spaces to address:

- Life Crisis
- Suicidal ideation
- Abuse
- Isolation
- Addictions
- Depression
- Self esteem
- Anger problems
- Fathering issues
- Domestic violence/abuse
- Sexual Violence abuse
- Sexuality
- Emotional wellbeing
- Family breakdown
- Relationship difficulties
- Lifestyle difficulties.

Our Services

Include 1 to 1 and group support and self-awareness and development programs to address issues such as Anger, Esteem and Managing Depression.

Self Help Groups

We have a weekly drop in self help support space called Your Space to hear and support men around ongoing life issues.

Counselling

We offer a Professional Counselling Service adhering to BACP protocols allowing the opportunity for individuals to gain self-understanding, personal development and instigate positive life change within a structured, agreed and ethical process.

Fathering Families Project

This BIG Lottery project offers "Social Fathers", (those who play a fathering role to pre-birth to 12-year-old children either biological fathers or not) support with the life issues which impact on their role as parent

The project offers

- Personalised support plan
- One to one support
- Counselling
- Couples support
- Mediation
- Practical support and Advocacy
- Personal awareness programs
- Personal development programs
- Parenting programs
- Anger programs
- Family time events

Family Wellness Project

The Family Wellness Project is an early intervention project for children aged 5 – 12 who are experiencing emotional health & wellbeing difficulties, and their families. The project supports children & their families across the Southern & Western (Fermanagh & Omagh only) Trust areas.

A child & Family Support Worker will aim to meet with children & their families on a weekly or fortnightly basis for approximately 10 sessions. Sessions last between 20- 50 minutes and can take place in the home, school or other community venue. The project will be offering wellbeing programmes to adults throughout the year, details can be found on the Family Wellness Project webpage.

Twitter:
@nichildcom

NICCY's role is to safeguard and promote the rights and best interests of all children and young people in Northern Ireland. NICCY uses the United Nations Convention on the Rights of the Child (UNCRC) to guide their work. The UNCRC is a list of 42 basic rights which every child and young person in Northern Ireland should have. All of NICCY's work is focused on making sure children and young people have access to these rights in their day-to-day lives, so they have the best opportunity to reach their full potential.

The Government and 'relevant authorities' (including health, education and justice agencies) provide services for children and young people. NICCY's job is to check they do this in a way that is in the best interests of young people. NICCY does this by:

- Advising government – Advising government on the policies, legislation (laws) and services it provides, for children and young people.
- Monitoring – Monitoring what government does for children and young people, to encourage them to make the best provision.
- Holding government to account – When NICCY believes not enough is being done for children and young people, they challenge government to do better.

NICCY's Legal and Investigations team deals with queries and complaints from children, young people, their parents or carers, about the service they receive from public bodies - public bodies include schools, hospitals, councils, social services and many more.

The Legal and Investigations team can provide assistance on a range of issues including education, bullying, suspensions and expulsions, special educational needs, health provision and access to services as well as many more.

The Legal and Investigations team can also fund or intervene in legal cases in certain defined circumstances. NICCY can offer assistance to children and young people up to 18 years of age or 21 years of age in certain circumstances.

Parenting NI

Parenting NI

Parenting NI offer a range of Parenting Programmes such as Families Together, Parenting Apart and Dads Project.

For further information on programmes running in the local area please contact Parenting NI or have a look on their website:

Sense is a national disability charity that supports people with complex communication needs, including those who are deafblind, to be understood, connected and valued. Sense supports children, young people and adults in their home and in the community, in their education and transition to adulthood and through its holidays, arts, sports and wellbeing programmes. Sense campaigns passionately for the rights of the people it serves, and offers practical help and support to families and carers, including information, advice, short breaks and family events. For more information, please visit www.sense.org.uk.

Sense currently offer the “Touching Lives Transforming Families” project, which works in partnership with the 5 Health and Social Care Trusts. This is a 5-year Big Lottery Funded Project aimed at supporting families with children age 0-12 affected by vision and/or hearing loss and complex needs.

The project will focus on putting together a support programme working directly with the child at home, school or in a community setting, that will include:

- Assessments that look at the child as a whole, including helping parents to understand a child’s vision and/or hearing loss.
- Specialist advice, support and information to families
- Practical advice about adapting the sensory environment to meet a child’s needs and offer advice on suitable play equipment.
- Developing and supporting a number of events for families, siblings and extended families.
- Working with a range of local organisations to provide advice, training and support.

Start 360

Voices West

VOICES WEST works with children and young people from age 7 upwards, and provides support for children and young people of substance misusing parents/adults. We work directly with the child or young person through therapeutic mentoring, individual counselling, creative play-work and systemic family intervention.

Referrals can be received from all professionals, and from families with Social Service Involvement.

VOICES WEST covers Castlederg, Omagh, Strabane, Derry/Londonderry, Dungiven, Limavady, and Enniskillen. We also offer support to the substance misusing parent/adult, including brief one to one support, and support to access and engage with local addiction specialist services

Daisy

Youth Treatment Service delivered in partnership between ASCERT and Start360. Funding by the Public Health Agency. Provides person-centred programmes for young people and young adults to help reduce the harm caused by their substance misuse. Offers direct work with the young person through therapeutic mentoring, individual counselling, therapeutic group work, and therapeutic play work. Also works with the whole family through one to one parent/carer support and systematic family interventions.

Criteria for Referral:

- Young people and young adults aged 11-25yrs.
- Young people whose substance use is impacting them, their families and communities and who are willing to seek support.
- The Service operates in Belfast, South Eastern, Northern and Western Health and Social Care Trust areas.
- We accept referrals from young people, their families or friends, and a range of professionals.
- Referral forms can be downloaded at www.start360.org or www.ascert.biz

Support 2gether

Contact Details

Telephone:
07868 710778

Support 2gether is a charity who supports families who live with Antenatal and Postnatal Depression. This is an illness that can affect 1 in 10 Mothers at the Antenatal stage (during pregnancy) and Postnatal stage (after birth). Current research suggests that 1 in 25 Fathers can also have Postnatal Depression.

Support 2gether is a grass root charity and has hands on experience living with this illness. One of our aims is to reduce the stigma that surrounds this illness and raise awareness within the public about the signs and symptoms. This is a treatable illness and with help and guidance mothers and fathers can get better. Please do not suffer in silence your Mental wellbeing is important.

You are not alone, Support 2gether we meet on the first Thursday of month in Omagh, and on the last Tuesday of the month in Augher. Our support meetings take place in a safe relaxed, non judgemental environment. It is an opportunity for mums to share experiences which can help to normalise the illness.

We are aware that coming to a group can be a scary experience and is not for everyone so we also offer 1 to 1 support, this can be done via telephone/messenger or in person.

To find out our location for the Support groups or if you have any queries please contact Una and Brenda by email at www.Support2gether.co.uk

You can find us on FB and our telephone number is 07868 710778.

Postnatal Depression is a common experience and with support and time you will recover.

You are not alone.

SureStart is an outreach programme available to all families with children under 4 years old to help them reach their full potential in Health, Education, Social and Play Skills. Sure Start provides practical advice and support to families through home visits, group based activities, respite and a variety of programmes for both parents and children.

If you live in any of the ward areas you are eligible to register with Sure Start.

Rainbow SureStart

Rainbow SureStart is a locally based project that aims to deliver the best start in life for every child living in the Castlederg, Drumquin, Clare, Glenderg and Newtownstewart areas.

Offering a wide range of fun filled programmes, together with expert advice and support services focused on health, education and family, there is so much to discover at Rainbow SureStart.

All services are free to use and suitable for antenatal mothers and families with children aged 0-4 years.

Established in 2006 by the Western Area Childcare Partnership, appointed Early Years, The Organisation for Young Children, as the projects Lead and Accountable Body. Early Years provide leadership, support with planning, delivery of services, administrative and financial support, and advice to the Management Committee.

The Rainbow SureStart team is a dedicated and enthusiastic multi-disciplinary team of 22 including: Co-ordinator, Outreach Workers, Health Visitor, Midwife, Speech and Language Therapist, Play Development Workers, Early Years Development Officer, P2YO Early Years Teams, Administrator plus local partners, all of whom are committed to giving parents every opportunity to afford their children a SURESTART IN LIFE.

Tiny Life

Tiny Life is Northern Ireland's only premature and vulnerable baby charity, dedicated to reducing illness, disability and death in babies here and providing support for families who have been affected by such circumstances. Tiny Life has three core activities:

- Providing practical and emotional support for parents and families with prematurely born babies and those requiring special or intensive care at birth
- Funding research into Maternal and Child Health and Family Support Services
- Providing information to health professionals and parents-to-be to ensure that every pregnancy has the best chance of a healthy outcome and a healthy baby

Contact Details

Family Support
Officer:
Catherine
McManus

Mobile:
07954301472

At local level there are a number of Family Support Services available:

Hospital Based Support Service – the Tiny Life Family Support Officer visits the neo-natal unit in the South West Acute Hospital Enniskillen to offer parents support and information whilst their baby is still in hospital.

Breast Pump Loan Service: Tiny Life provides electric breast pumps for mums who wish to express their own milk to be fed to baby while they are in neonatal care.

Parent Support Groups: These informal get-togethers provide an opportunity for parents who have been through similar experiences to meet, learn and receive support from one another. These happen once a month in both the Omagh area.

Baby Massage courses

Throughout the Year Tiny Life will be running a number of Baby Massage classes. The classes normally run for five weeks and are held in a variety of locations in the Omagh area.

Home Based Volunteer Support

Tiny Life is currently building on its local bank of Family Support Volunteers. Volunteers are carefully selected and trained. They are matched with a family and they provide practical, social and emotional support on a weekly basis.

Autism Spectrum Disorder Service

Western Health
and Social Care Trust

The Journey through the Assessment Process Service Structure

The ASD Service is a multi-disciplinary service that has been developed to offer assessment, diagnosis, support and early intervention for children and young people who are presenting with characteristics commonly associated with the autistic spectrum.

Team members may include:

Consultant Lead Clinical Psychologist, Community Paediatricians, Clinical Psychologists, Autism Practitioners, Social Workers, Occupational Therapist, Health Visitors, Speech & Language Therapist, Team Administrator, Team Secretaries.

Assessment Process

Assessment is the first step in your journey within our Team. This process is tailored to the individual needs of each child and their family and involves multi-professional specialist assessment. This is a process that may occur over a period of weeks/months and may include:-

- A comprehensive history of your child's development is completed with parent(s). This appointment will last 1½ - 2 hours.
- Assessments with your child to observe their social interaction, communication and behaviour.
- Liaison with/referral to other professionals or agencies involved with your child.
- Home and/or school observations.
- Initial assessment/advice/intervention from team members.
- You will be appointed a key-worker.

Following a confirmed diagnosis a post diagnostic appointment is arranged with a member of the Autism Team . A Carers Assessment of Need is offered with the social worker and if required appropriate onward referrals are made. This could be for parent training, Autism Practitioner, Clinical Psychologist, social skills groups. Alongside this if there are complex needs a comprehensive assessment of need can be carried out.

Review clinics are held on a monthly basis in each sector of the Trust and any child with a confirmed diagnosis can have access to this by contacting their local office and requesting a review.

Bringing it all Together

Following assessment the members of the Team involved will take some time to discuss their observations and all other available information on your child.

This may involve convening a multi-disciplinary meeting which may be attended by Members of the WHSCT ASD Team, Senior Educational Psychologist for Autism (WELB), a representative from your child's school, any other professionals involved in your child's care.

The aim of this meeting is to ensure a co-ordinated approach to your child's assessment and care.

We aim to ensure that parents are involved and informed throughout the assessment process. Your key-worker will keep you informed at all times.

We can be contacted at the addresses below:

Children's Disability Service

Western Health
and Social Care Trust

Who is the service for?

Children who have a Learning Disability, Physical Disability and/or complex & enduring physical health needs. We work with children and young people up to the age of 18 years.

How does it help?

The Social Work staff provides a holistic needs-led assessment of the child and their family. The Children's Disability Team respond flexibly and sensitively in order to provide a range of services that will enable children with a disability to reach their full potential in order to live as full a life as possible within their capabilities. Within our work we aim to respect the choice, rights, fulfilment, independence, dignity, and privacy of each individual.

Services Provided

The services offered are variable and person-centred, depending on the outcome of the needs-led assessment. Resources may include:

- Support for children & families
- A listening ear
- Information
- Advice
- Liaison with school, youth groups, voluntary agencies, public and private sector
- Liaison with other professionals within health & Social Services
- Individual assessment of need (UNOCINI)
- Community services to meet assessed personal care needs
- Respite/short break and social outreach opportunities
- The transition officers' role is to coordinate and facilitate the smooth transition of young people through their final years of school

Health &
Disability Service
Community
Services Dept
Tyrone &
Fermanagh
Hospital
Omagh
Co Tyrone
BT79 0NS

Telephone:
028 8283 5050

- The Paediatric Hospital Social Worker will coordinate discharge planning from the hospital to the community for children with complex needs.

How can I access these services?

Presently the team operates an open referral system whereby any member of the public can request an assessment of need via contacting the duty social worker, either in writing or by telephone. Professional referrals should be completed on the first four pages of the UNOCINI

Who provides this service / team information?

The team comprises of four full-time Social Workers and one Senior Social Work Team Leader.

How do I find out more about this service?

Information can be provided by contacting the duty Social Worker on 028 8283 5050. Alternately you can discuss this service with any other professional who may be involved with your child.

Where else can I get help / support

You may access help/support from any health professional who is involved with your child.

You can also access further information regarding trust services via the Western Health & Social Care Trust website

Website:

www.westerntrust.hscni.net

Gateway

Western Health
and Social Care Trust

What is Gateway?

- Gateway Team is a social work service for children and families
- It is the first point of contact for people who are concerned about a child or young person not already known to Social Services.
- Gateway will respond quickly to the needs of children and families who are referred for Social Work Service
- We provide a Social Work Service Monday –Friday 9:00am – 5:00pm

Contact Details

Gateway Team
Whitehill
106 Irish Street
Londonderry
BT74 2ND

Telephone:
028 7131 4090

Gateway deals with 3 types of contact:

1. Information exchange
2. Request for advice and guidance
3. Referrals – Requests for assessment and assistance

What is the purpose of Gateway?

- To make sure that all new referrals are responded to promptly
- To link in with children and families to assess their needs and identify appropriate support services
- To ensure an immediate response to safeguard children in need of protection
- To ensure that everyone involved with a child can contribute to the assessment of the child and his or her family
- To make sure children and young people receive ongoing social work support whenever they need it
- To work closely with other agencies when additional support is needed

What do we do if an assessment and assistance is required?

- A social worker is allocated the case and will visit with children, young people and families in their homes to understand what the problem is and how they can help or support the family
- The social worker undertakes an initial assessment using a UNOCINI document – Understanding the Needs Of Children In Northern Ireland, and aims to complete this within 10 working days
- In their assessment the social worker will look at strengths, needs, risks and resilience or protective factors
- The social worker works in partnership with other professionals already involved with the family such as the GP, School, Health Visitor in order to get a better understanding of the family's situation
- The social worker will take steps to protect children and young people when this is necessary
- Working together with the family and other professionals, the social worker makes a decision as to how best to support the family, or if there are risks, how best to minimise those risks to the child or young person
- Following assessment, the social worker and the family may agree there is no further role for Social Services. Or, they may decide that family support is needed and this support can come from locally based services in the community, such as the HUB.
- If however, it is felt that further social work intervention is needed, the case will transfer to the Family Intervention Service
- The social worker will give the family (and professionals when appropriate) a copy of the completed UNOCINI

RISE NI Regional Integrated Support for Education, NI

Western Health
and Social Care Trust

RISE NI
Regional Integrated
Support for Education

RISE NI is a multidisciplinary team, working in partnership with education. The team focuses on early intervention and has a holistic approach incorporating health improvement, social and emotional wellbeing, and child development.

How the Service Works

Our service aims to build capacity within schools, nurseries and playgroups by providing advice and information, training and support to educational staff.

The team provides a consultation service to referrers. Education staff can ring the team to get advice and signposting, discuss potential referrals, or organise Universal or Targeted groups and/or training.

Specific referrals can be made by Education Staff to support children aged 3 to Year 4 (aged 8) who are eligible for a pre-school place or who attend pre-school / school and who have concerns relating to their development and/or social/emotional wellbeing. RISE NI accept referrals for any of the following concerns which are impacting on the child's ability to access the curriculum

- Social, emotional and behavioural needs
- Speech, language and communication needs
- Sensory, motor and perceptual needs

What we will do

Following consultation with the team, we may offer training, small group or whole class programmes to playgroups, nurseries, or schools without a specific referral.

If a specific referral is recommended, an assessment will be offered by the team at the child's educational setting. Support may be provided to the child, family, teachers and classroom assistants geared specifically around their needs. This support may include:

RISE NI, WHSCT was previously known as the Western Education Support Team

Riverside Family Centre

Western Health
and Social Care Trust

Statement of Purpose

The Family Centre works in partnership with parents, carers and professionals, to provide intensive therapeutic support and family support services to families and children in the Omagh area. Referrals are only accepted for families known to WHSCT statutory childcare social work teams including- Gateway, Family intervention Services and Looked After Children's teams.

Aim

Our aim is to provide an intensive and therapeutic family support response, with an emphasis on maintaining children in their families and communities, through strengthening parenting capacity, encouraging and assisting positive parenting and promoting the well-being and safety of children with assessed needs.

The delivery of these services takes place at the Family Centre, family home or in local community facilities, wherever is appropriate to the family need. Sessions are usually offered weekly for a period of time to suit case complexity and need with regular reviews to ensure work is focused.

Services Provided - Work With Families:

- Family Work.
- Relationship support (parent/carer-children).
- Play Work with parents and children.
- Practical and emotional support at times of crisis.
- Assessment (brief / specific purpose only).
- Consultative support to social work staff on specific case issues.

Work with Parents:

- Individually tailored Parenting Education Programmes.
- Relationship and Attachment Work.

- Behaviour Management Support.
- Help and support with homecare, childcare and budgeting.

Work with Children and Young People:

- Focused individual work on specific issues.
- Life Story.
- Grief, Loss and Change/Transition.
- Specific issues can include exposure to parental alcohol misuse; family conflict or domestic violence; abuse, neglect, trauma or other childhood adversity; keep safe and self-protection advice.

Basic Principles

- To value and recognise diversity of individual need.
- Everyone to be treated with respect.
- Choice, privacy, confidentiality and protection will be promoted.
- Children's welfare and development are paramount.
- To work in partnership to safeguard and maintain children in their families and communities.

Referrals

Referrals to the Family Centre are received from WHSCT Childcare Social Work Teams through the WHSCT Family Support Panel (Southern Sector). The Family Support Panel Information Booklet and Access Form are available to referring staff on WHSCT Trustnet.

Process

A referral will be acknowledged in writing by the Family Support Panel Administrator, then either placed on the Waiting list or allocated. Upon allocation a meeting involving the family and relevant professionals will be held to identify need and agree the content and purpose of work.

Sensory Support Team

Western Health
and Social Care Trust

Who is the service for?

The sensory support service is for children who have a sensory disability be that deafness, hearing loss or visual impairment.

Purpose:

The purpose of the sensory support service is to maximise opportunities for each child with a sensory disability to ensure they reach their full potential.

Team members:

The sensory support team comprises of a senior social worker, social workers, rehabilitation workers for visually impaired and an equipment and technical officer.

What we do:

- The sensory support team will meet with individuals, families and carers to provide information and advice regarding deafness, hearing loss and/or visual impairment.
- Individual assessment of need is completed to clearly identify the needs of the individual with a sensory disability as well as the needs of the family and carers in that person's life.
- Rehabilitation services will provide support to visually impaired children/young people specifically through mobility training, daily living skills and communication skills.
- Emotional support
- Liaison with/referral to professional's organisations that can provide specialist support to the child with a sensory
