

CiNI (Parentline NI) are delighted to introduce the Parent Participation Service

What we do:

CiNI are funded by the CYPSP
to lead on:

- Facilitating engagement ensuring the voices of parents influence the activities of CYPSP.
- Build capacity in service providers to develop and improve on co-production practice with parents.

How we do it?

Co-production is about equality - the voice of parents and practice wisdom both count.

“Giving parents who use services an equal opportunity to sit at the table to shape those services and make decisions about what effects them”.

FOR PARENTS

Are you a parent who is passionate about an issue or service that impacts you or your family? Such as:
