Western Area	Tom Cassidy	<ul style="list-style-type: none"> <li>• 3 Task and Finish Groups are established and meeting regularly. Currently focusing on funding for next 2 years. These over arch several of the regional priorities.</li> <li>- <b>Priority 1: All CYP have best start in life and are emotionally and physically healthy</b> – funding will focus on Hope and emotional wellbeing. Lead organisations in each LPG area will be identified to deliver a co-designed programme on priority topics identified by young people to help them feel hopeful about the future. Opportunity for young people to become peer champions. Parallel with this School of Hope T4T training will be made available for those working with young people to provide consistent language to change the narrative to hope and resilience. To start in September.</li> <li>- <b>Priority 2: All CYP are safe and their welfare is promoted in their homes and communities.</b> This priority is also including cost of living pressures. Lead organisations identified by LPGs will coordinate and deliver health promoting families model. This will be co-designed by attendees, who will be targeted through a referral process from LPG members and hubs. Will include elements such as cook-it, (to include ingredients), personal development etc. To start in September / October.</li> </ul>	<ul style="list-style-type: none"> <li>• Cost of living crisis, specifically food and fuel remains a significant challenge and associated parental stress how this will impact children.</li> <li>• Work force issues, recruitment, retention and burnout across all sectors.</li> <li>• Community sector is increasingly dealing with greater need and services are at full capacity in many instances. The increased costs associated with the delivery of services is causing considerable difficulties. For example, increased utility prices for running centres and venues are being borne directly by the service providers and were not budgeted for in financial planning due to the exponential rise in energy and cost of living prices.</li> <li>• ASD Waiting lists.</li> <li>• High levels of Domestic Violence</li> </ul>
