

Can We Talk

Tuesday 25th October 2022

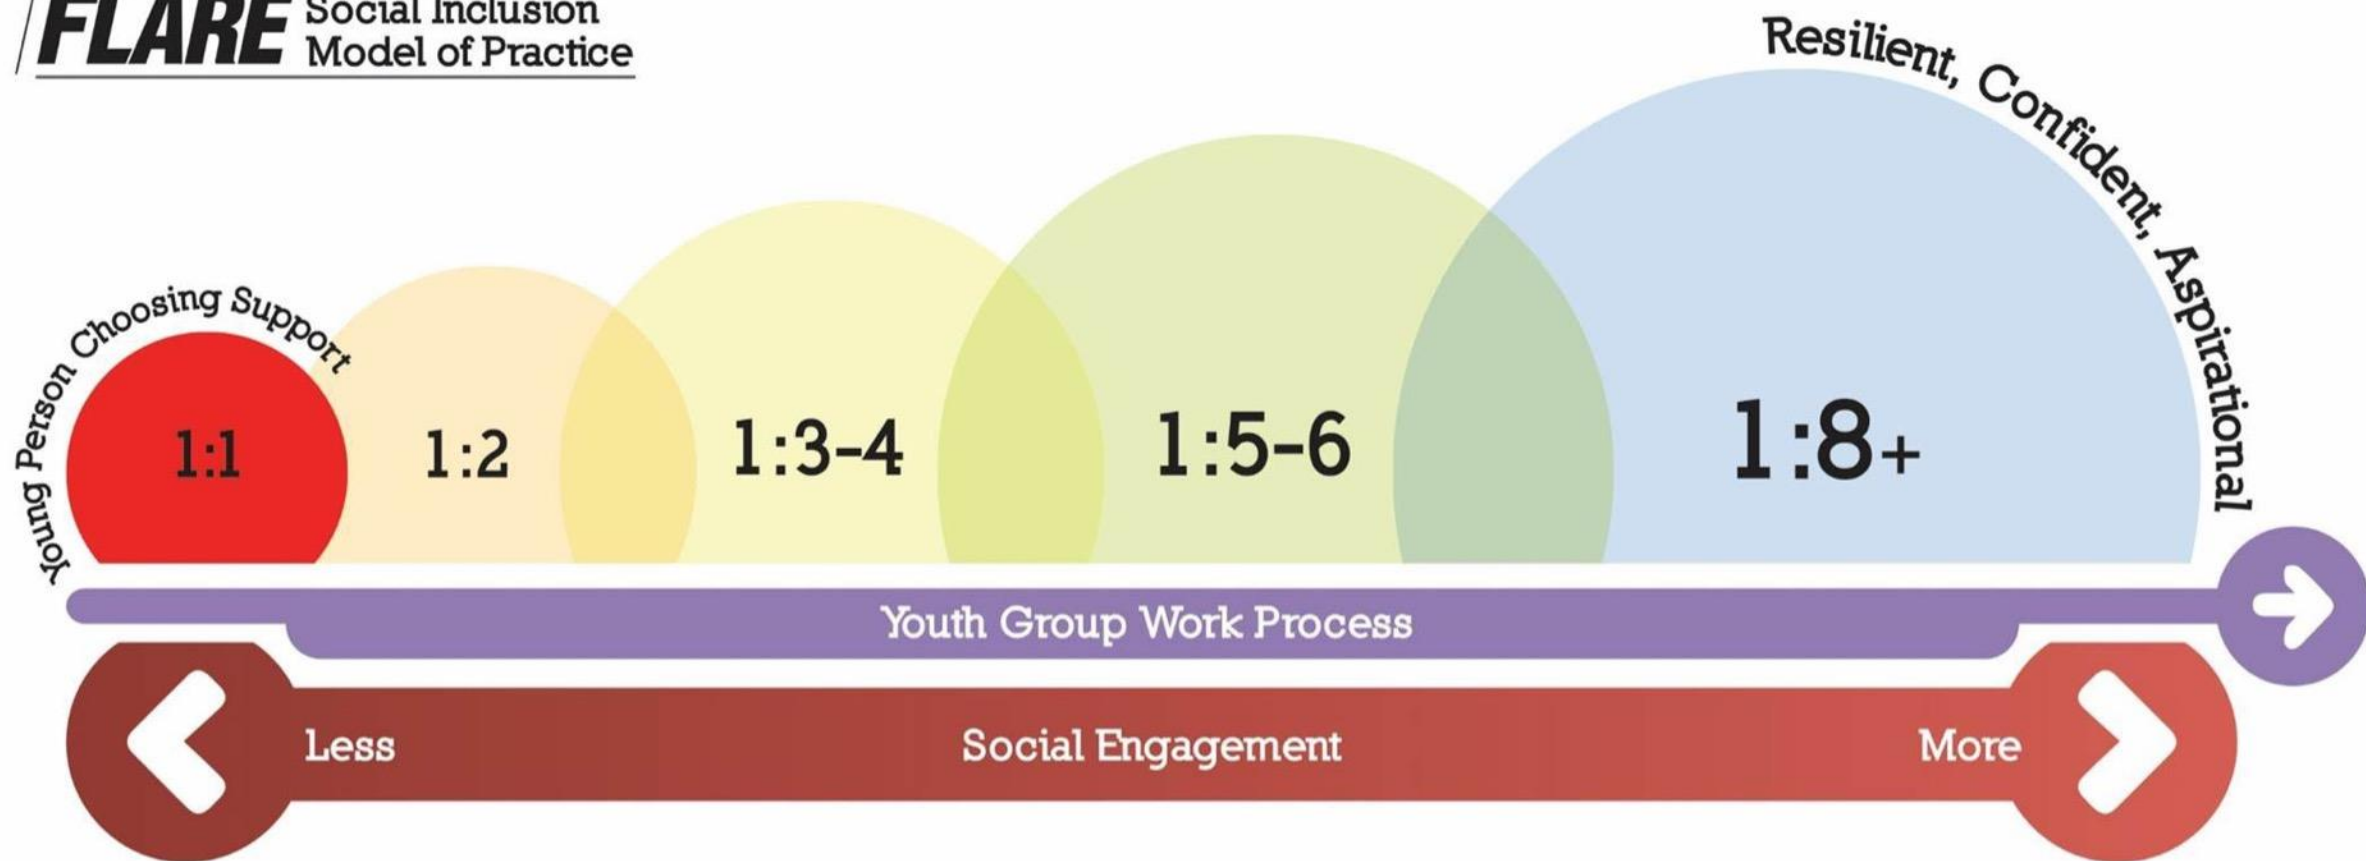

Rationale

Extensive health service research and needs evidenced by Priorities for Youth and Regional Assessment of Needs has established the need for such a service to improve young people's mental health and well-being. Poor mental health is proven to affect young people's educational attainment, ability to form positive relationships thus increasing isolation, sense of happiness, and threat to their future opportunities and meaningful role in the community.

The Education Authority Youth Service has developed an innovative support service for young people aged 11-25 on their emotional health and wellbeing needs.
